SAJGA

Dr Buda's Sajga is a wobbler made of a special kind of transparent polycarbonate characterized by durability and elasticity. The lure cannot practically be broken. The adequate schedule of weight in chambers enables a great push out and stability when flying through the air. In water, the relation body - back enables a deep diving, even up to 5 m.

DRAGON FLY SUPERIOR

ROTATION

RATIO SCALE

DRAGON FLY

Dr Buda's Dragon Fly is a remarkable combination of strimmer and spinner. It is a special lure that combines what has always been thought of as impossible to combine – fly-fishing and luring. Special metal alloys, protected in the galvanization process, same in form, but different weight, brass, aluminium and polycarbonate wings, elastic body, tassels made of natural and the best artificial materials, revolutionary design maximise the catch and enjoyment on water. This half-spinner offers an incredible push out length, even 60 m, very precisely. The powerful machine on the spinner's nose attracts the fish. The horizontal pulling from the shore, vertical pulling from the boat, horizontal pulling on the bottom, in the middle level or on the surface of the water are just some of the techniques that can be applied with this artificial bite.

BALSA
HAND MADE

BALSA
HAND MADE

Dr Buda's balsa products are in the exact shape of the fish, total 3-D imitation. Density of balsa on the surface and in the middle is identical and internal and external protection impregnate the wood so that it is protected from wather but keeps all positive characteristics of balsa. Metal-plastic rattle with steel balls gives a muffled vibration and sound frequency. Those wobblers imitate healthy fish with their movements. Especially jointed ones, which have a special joint that can not be seen, vibrate with the back part of the body and attract fish. The balance of weight guarantee stability even when water changes its speed. Those hand made and hand colored products are packed only in massive hard made and wax protected oak boxes which gives them a new dimension of undisputed quality of Dr Buda's lures for undisputed enjoyment in fishing.

BOXES

HAND MADE
BOXES

BOXES

In DrBuda's manufacturing and hand made programme one can find special wooden boxes for lures and flies. Boxes are made of several different wood types: african oak, samba, mahogany, nut wood, wild pear wood, wild chery wood. Boxes are protected with spetial wax and on the caver have 2-D logo. Ther is possibiltiy to carve your own logo on deemand.
